

MURIOUS XI

Annual Technical Festival

Expocision

“Cast Ideas to Design”

Expocision refers to create something new out of things available to us at its maximum utilization. Participants should bring their projects which should be new and interesting

About Event:

The selected participants have to setup their projects at the venue at least an hour before the event. Make sure you bring a PowerPoint Presentation of your project with laptops and printed copy of the project report. The judges will analyze all the projects very firmly and will announce the final results.
